Adopted by Governors : March 2018

Mission Statement

With Jesus as our guide, we learn, pray and live together, in a safe and happy way.

Statement of intent

At **SS Peter and Paul**, we understand that computer technology is an essential resource for supporting teaching and learning. The internet, and other digital and information technologies, open up opportunities for pupils and play an important role in their everyday lives.

Whilst the school recognises the importance of promoting the use of computer technology throughout the curriculum, we also understand the need for safe internet access and appropriate use.

Our school has created this policy with the aim of ensuring appropriate and safe use of the internet and other digital technology devices by all pupils and staff.

The school is committed to providing a safe learning and teaching environment for all pupils and staff, and has implemented important controls to prevent any harmful risks.

Legal framework

This policy has due regard to the following legislation, including, but not limited to:

Use of the internet

The school understands that using the internet is important when raising educational standards, promoting pupil achievement and enhancing teaching and learning.

Internet use is embedded in the statutory curriculum and is therefore an entitlement for all pupils, though there are a number of controls the school is required to implement to minimise harmful risks.

When accessing the internet, individuals are especially vulnerable to a number of risks which may be physically and emotionally harmful, including:

- Access to illegal, harmful or inappropriate images
- Cyber bullying
- Access to, or loss of, personal information
- Access to unsuitable online videos or games
- Loss of personal images
- Inappropriate communication with others
- Illegal downloading of files
- Exposure to explicit or harmful content, e.g. involving radicalisation
- Plagiarism and copyright infringement
- Sharing the personal information of others without the individual's consent or knowledge

The **e-safety officer** will ensure that all members of staff are aware of the procedure when reporting e-safety incidents, and will keep a log of all incidents recorded.

The **e-safety officer** will attempt to find alternatives to monitoring staff use of social media, where possible, and will justify all instances of monitoring to ensure that it is necessary and outweighs the need for privacy. The member of staff who is being monitored will be consulted prior to any interception by the school.

Cyber bullying incidents will be reported in accordance with the school's **Anti-Bullying and Harassment Policy**.

The governing body will hold regular meetings with the **e-safety officer** to discuss the effectiveness of the e-safety provision, current issues, and to review incident logs, as part of the school's duty of care.

The **headteacher** will review and amend this policy with the **e-safety officer**, taking into account new legislation, government guidance and previously reported incidents, to improve procedures.

Teachers are responsible for ensuring that e-safety issues are embedded in the curriculum and safe internet access is promoted at all times.

All staff are responsible for ensuring they are up-to-date with current e-safety issues, and this E-Safety Policy.

All staff and pupils will ensure they understand and adhere to our **Acceptable Use Agreement**, which they must sign and return to the **headteacher**.

image hosted in the UK, or criminally obscene adult content hosted in the UK.

If a child protection incident is suspected, the school's child protection procedure will be followed - the **DSL** and **headteacher** will be informed and the police contacted.

The **e-safety committee** will evaluate and review this E-Safety Policy on an annual basis, taking into account the school's e-safety calendar, the latest developments in ICT and the feedback from staff/pupils.

School Policy

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This Acceptable Use Policy is intended to ensure:

- ✓ that young people will be responsible users and stay safe while using the internet and other digital technologies for educational, personal and recreational use.
- ✓ that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.

The school will try to ensure that *students / pupils* will have good access to digital technologies to enhance their learning and will, in return, expect the *students / pupils* to agree to be responsible users. Children will have to accept these rules before accessing their network area.
